# LAWYER UP

A snippet of our website

**One of a game in India:  
Informative, analysis skills,  
interactive and non-  
addictive**

# TEAM

**College: Galgotias College of Engineering and Technology**

## Team Members:

**Siddhart Atrey (Team Leader)**

**Vanshika Kumar**

**Tushar Singh**

**Priyank Mishra**

## Theme:

**Smart Education (Edtech + Innovation)**

# **Problem Statement:**

**Development of a gamified platform on Children's Rights to increase legal literacy and awareness among children in India**

**A fun, interactive, and engaging gamified platform that educates children in India about their rights and empowers them to stand up for themselves and others.**

## **Visual Representation**

## **Target Audience:**

---

The platform is intended for children between the ages of 8 and 16, and will be designed to be inclusive and accessible to all children regardless of their socio-economic background, gender, or other demographic factors.

# Key Features:

- ☒ Educational Achievement Metrics
- ☒ Legal Learning Path and Progression
- ☒ Interactive Legal Glossary
- ☒ Avatar Customization and Enhancement
- ☒ Multilingual Learning Support
- ☒ Child-Safe Global Chat (with profanity filter)
- ☒ Cross-Platform Accessibility
- ☒ Continuous Improvement Feedback System
- ☒ Legal Challenges and In-Game Events
- ☒ Non-addicting

# Deliverables/ Show Stopper:

- **Real-World Scenarios for Skill Building:**

Engage in real-world scenarios that foster critical thinking and problem-solving skills.

- **Guided Case Analysis:** Access the Case Analyzer tool for structured guidance in evaluating specific cases or scenarios, enhancing your analytical capabilities.

- **Competitive Player Rankings:** Track your real-time rankings on the Leaderboard.

- **Data-Driven Platform Optimization:** Leverage Platform Analytics, incorporating user testing data and feedback.

**A Virtual Representation of the “Interactive Platform”  
with display of Constitutional Rights**

# Use Cases:

☒ **Schools and Educational Institutions:** Incorporate the gamified learning platform into the school curriculum to educate children on their rights, fostering legal literacy and a child-centric learning environment.

☒ **NGOs and Community Organizations:** In workshops and awareness campaigns to empower children and, leveraging educational gamification techniques to engage and inform.

☒ **Child Helplines and Support Centers:** Integrate the platform with their outreach efforts, and help children understand where and how to seek help if their rights are violated.

☒ **Legal Education Programs:** By introducing the gamified learning platform as a supplementary tool, allowing for interactive decision tree logic and real-time feedback to promote legal literacy.

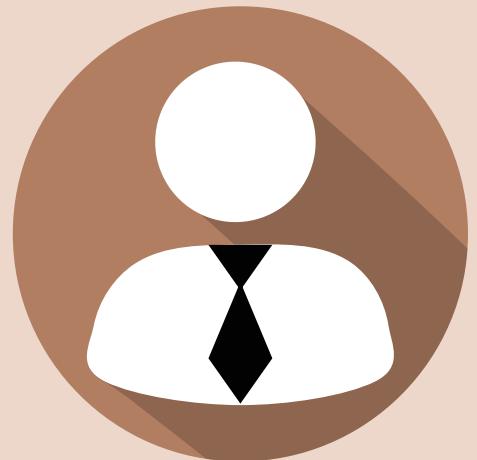

☒ **Psychological Impact on Children:** To assess the level of legal awareness , fostering a sense of security in cases of rights discrepancies.

☒ **Community Building and Empowerment:** Users can participate in a virtual event organized by a child rights organization, promoting engagement in a child-centric design.

# Idea:

**Lawyer Up (Guardians of Children's Rights)** is a game where players take on the role as a manager of a law firm, providing advice to clients who seek to understand and assert their rights in various real life scenarios.

The child will become  
“Manager of the Law Firm”

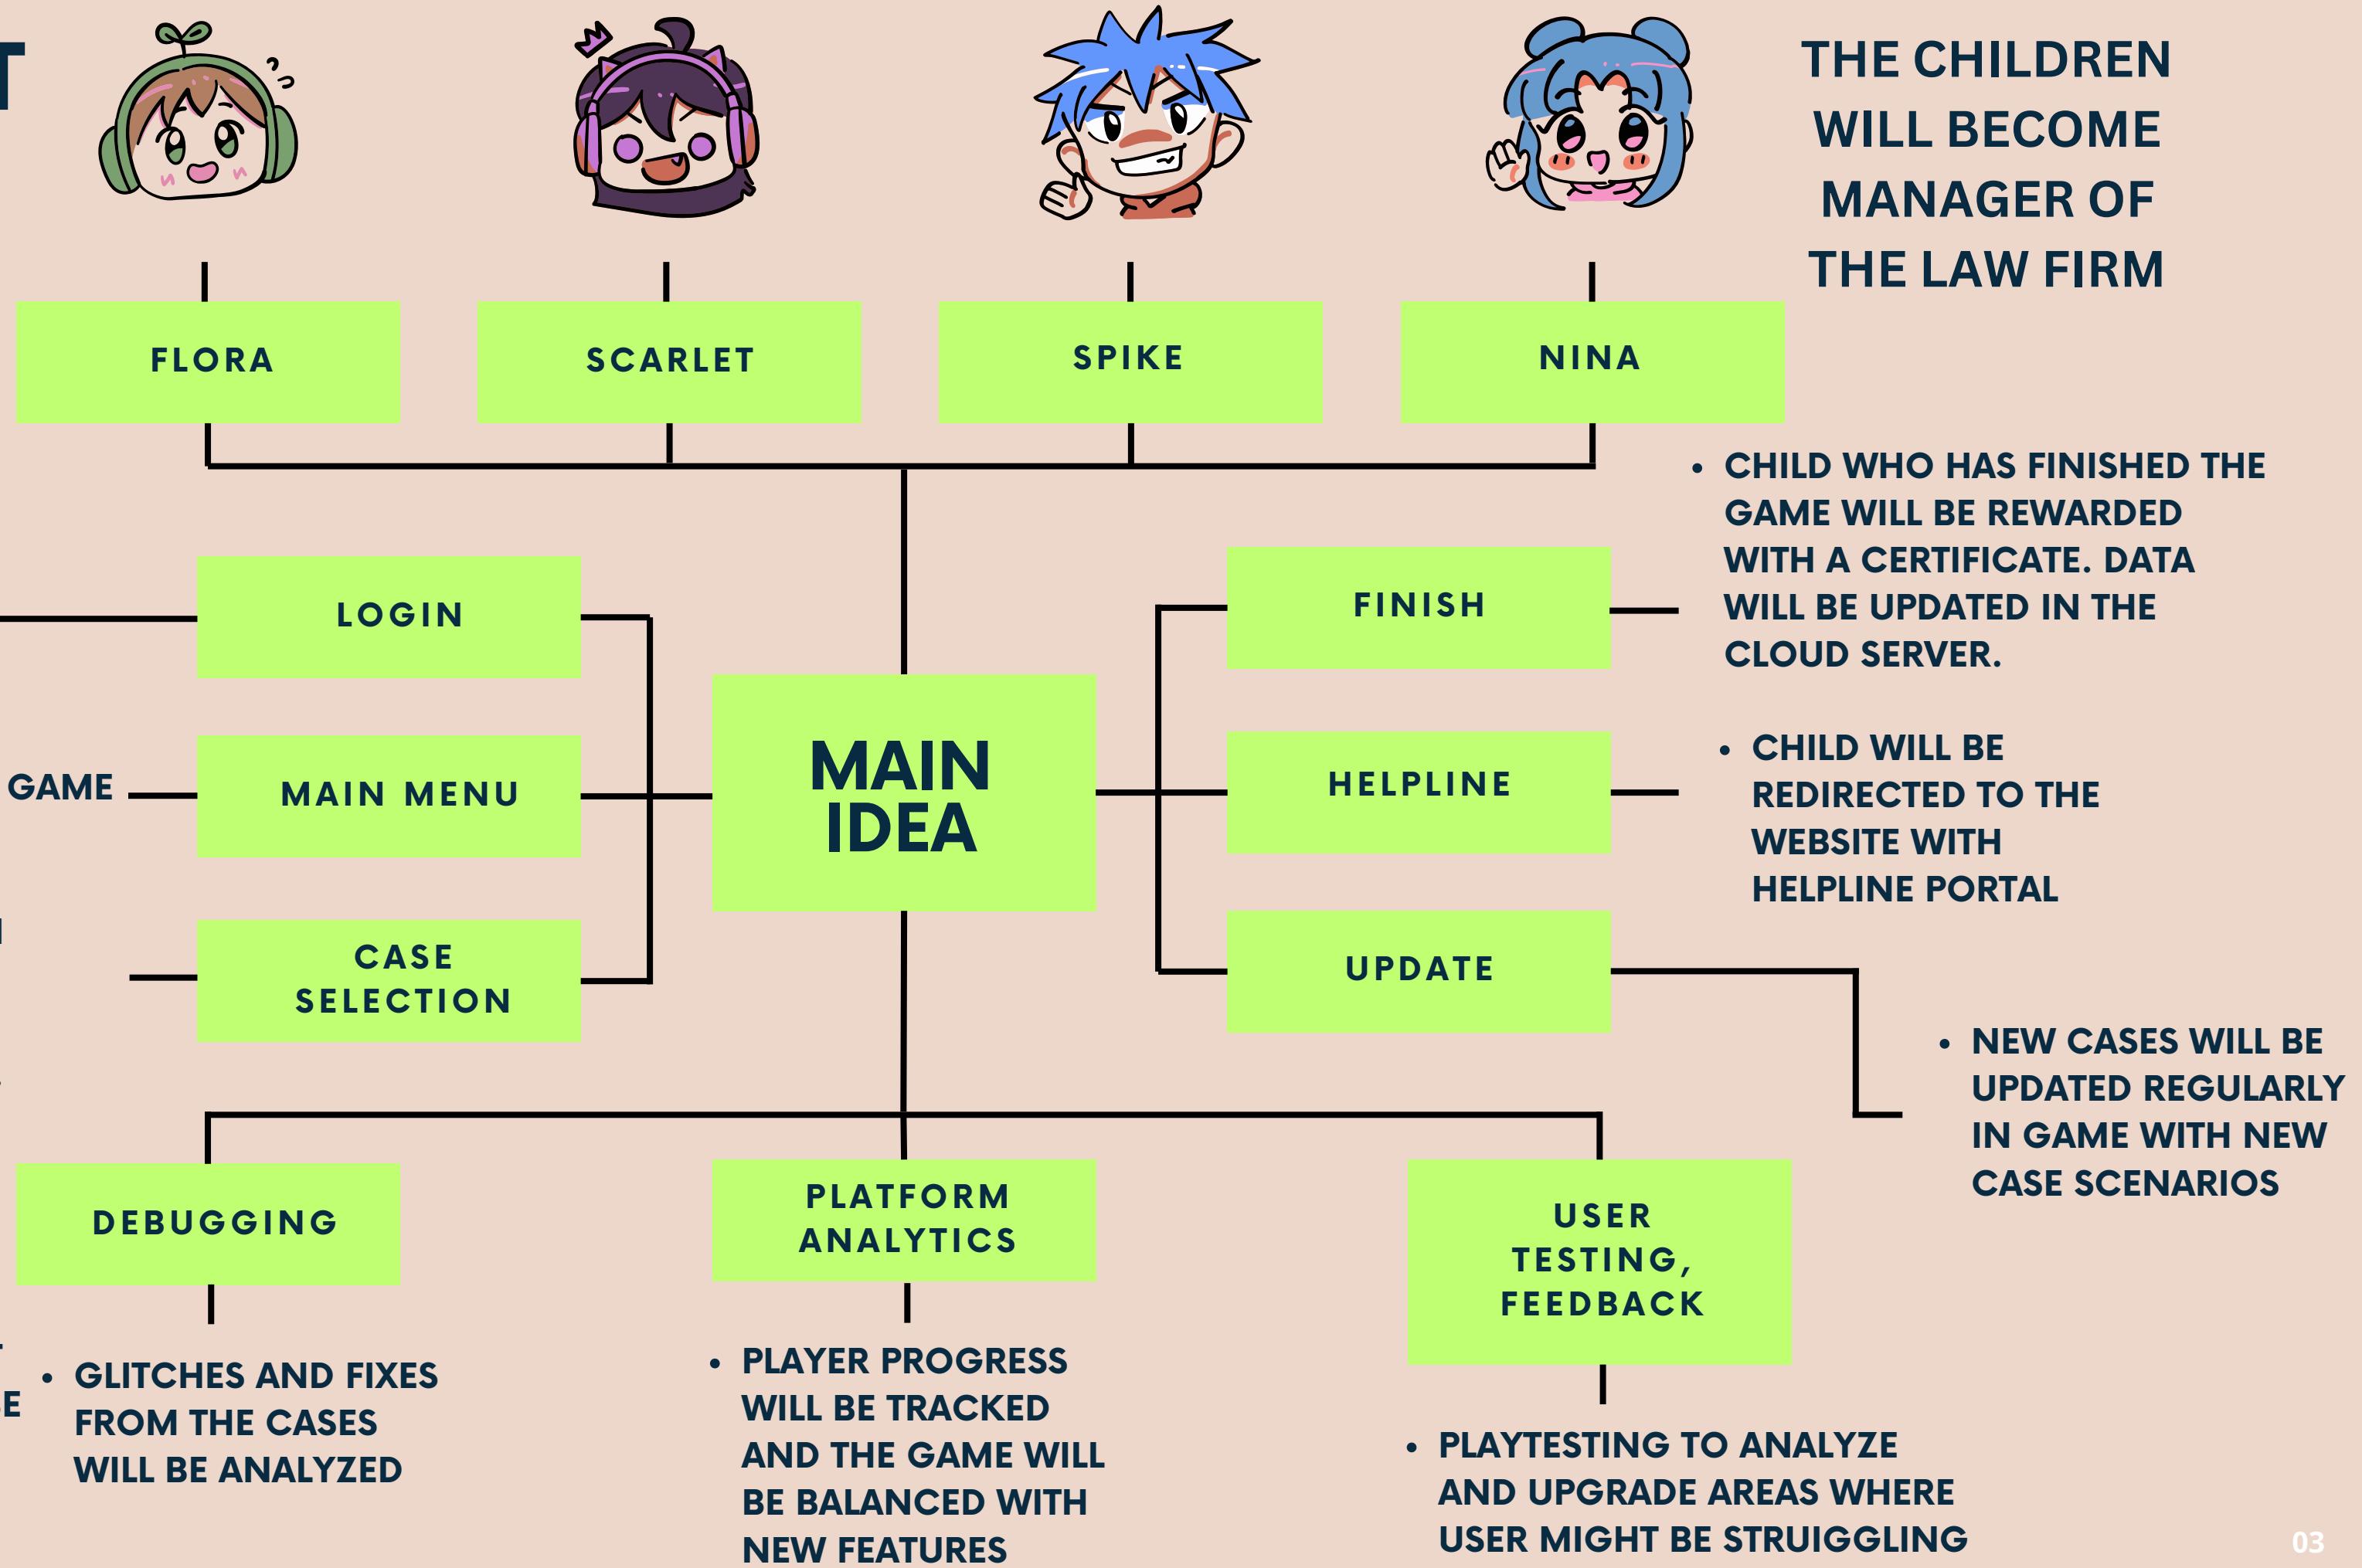

**The complexity of the case will increase with experience, and the child will have to solve the case based on their critical thinking.**

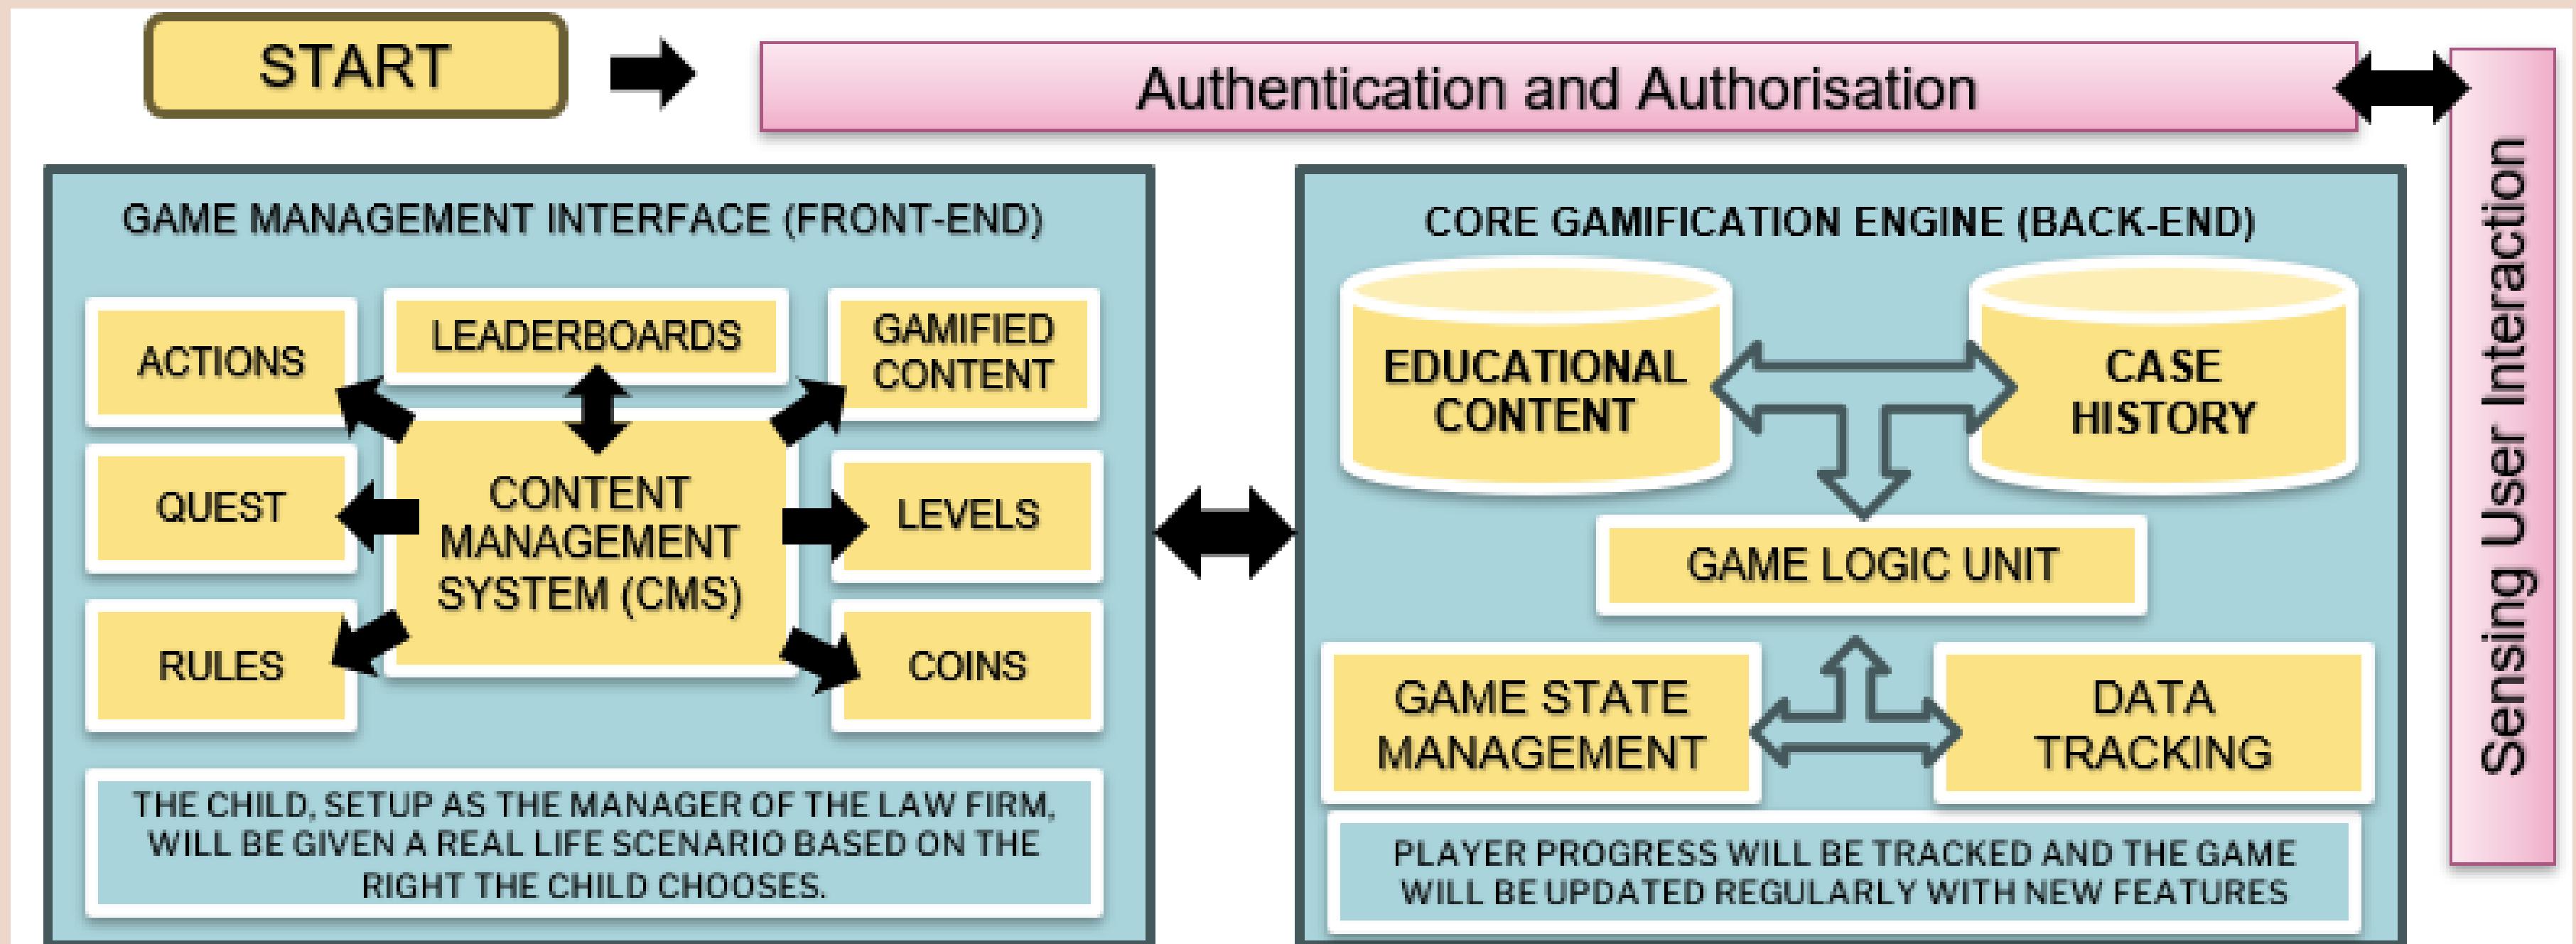

# FLOWCHART

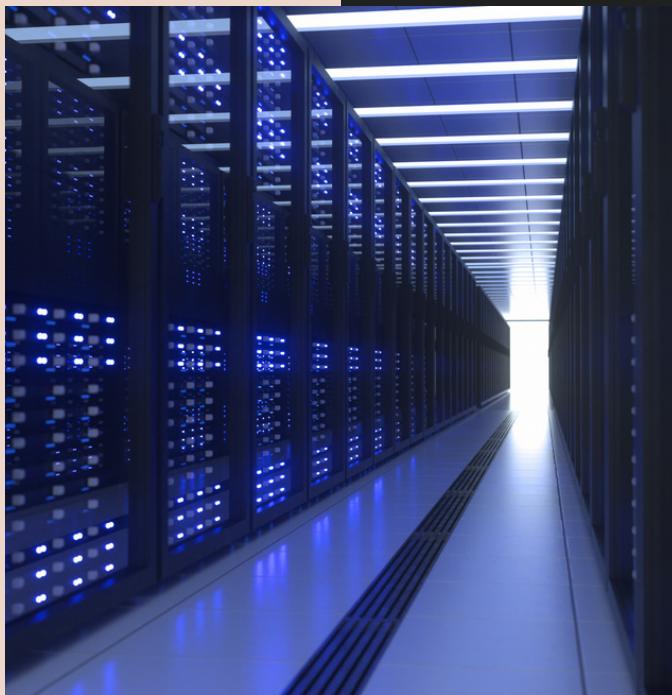

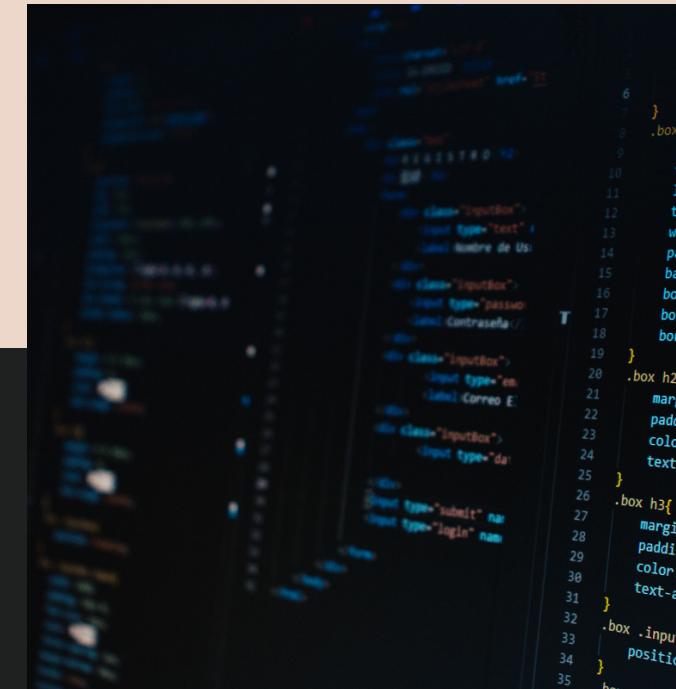

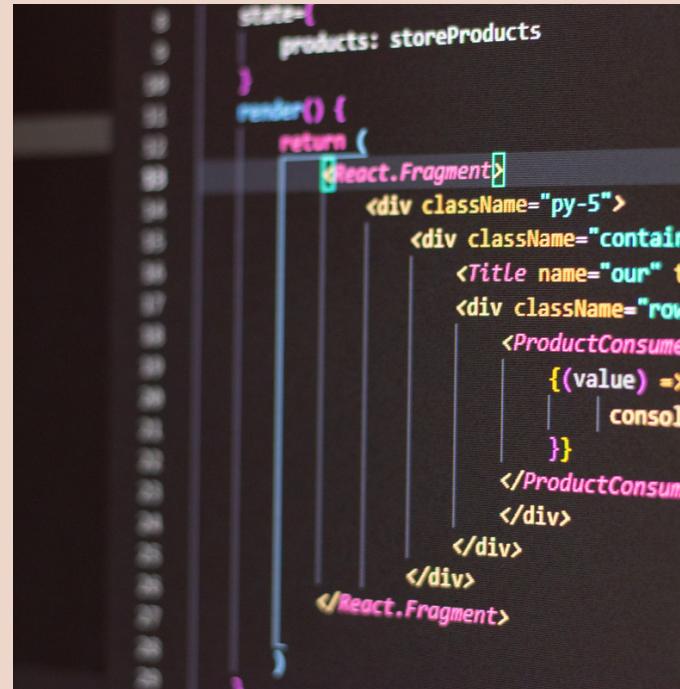

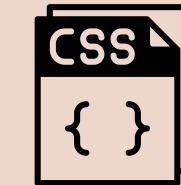

START

- THE CHILD WILL LOGIN INTO THE ACCOUNT AND CHOOSE A CHARACTER FOR CUSTOMIZATION AND LANGUAGE
- PLAY GAME
- THE CHILD SETUP AS THE MANAGER OF THE LAW FIRM WILL BE GIVEN A REAL LIFE SCENARIO BASED ON THE RIGHT THE CHILD CHOOSES. THEN THE CHILD WILL HAVE TO CHOOSE BASED ON HIS UNDERSTANDING THE SCENARIO IS RIGHT OR WRONG,
- THIS WILL LEAD TO THE NEXT STEP, THEN THE CASE WILL BE FINISHED, THE CHILD WILL MOVE TO THE NEXT RIGHT

# Approach:

# Technology Stack:

01

**Language:**  
JavaScript, C#  
(Unity)

02

**Front-End:**  
HTML5, CSS,  
JAVASCRIPT

03

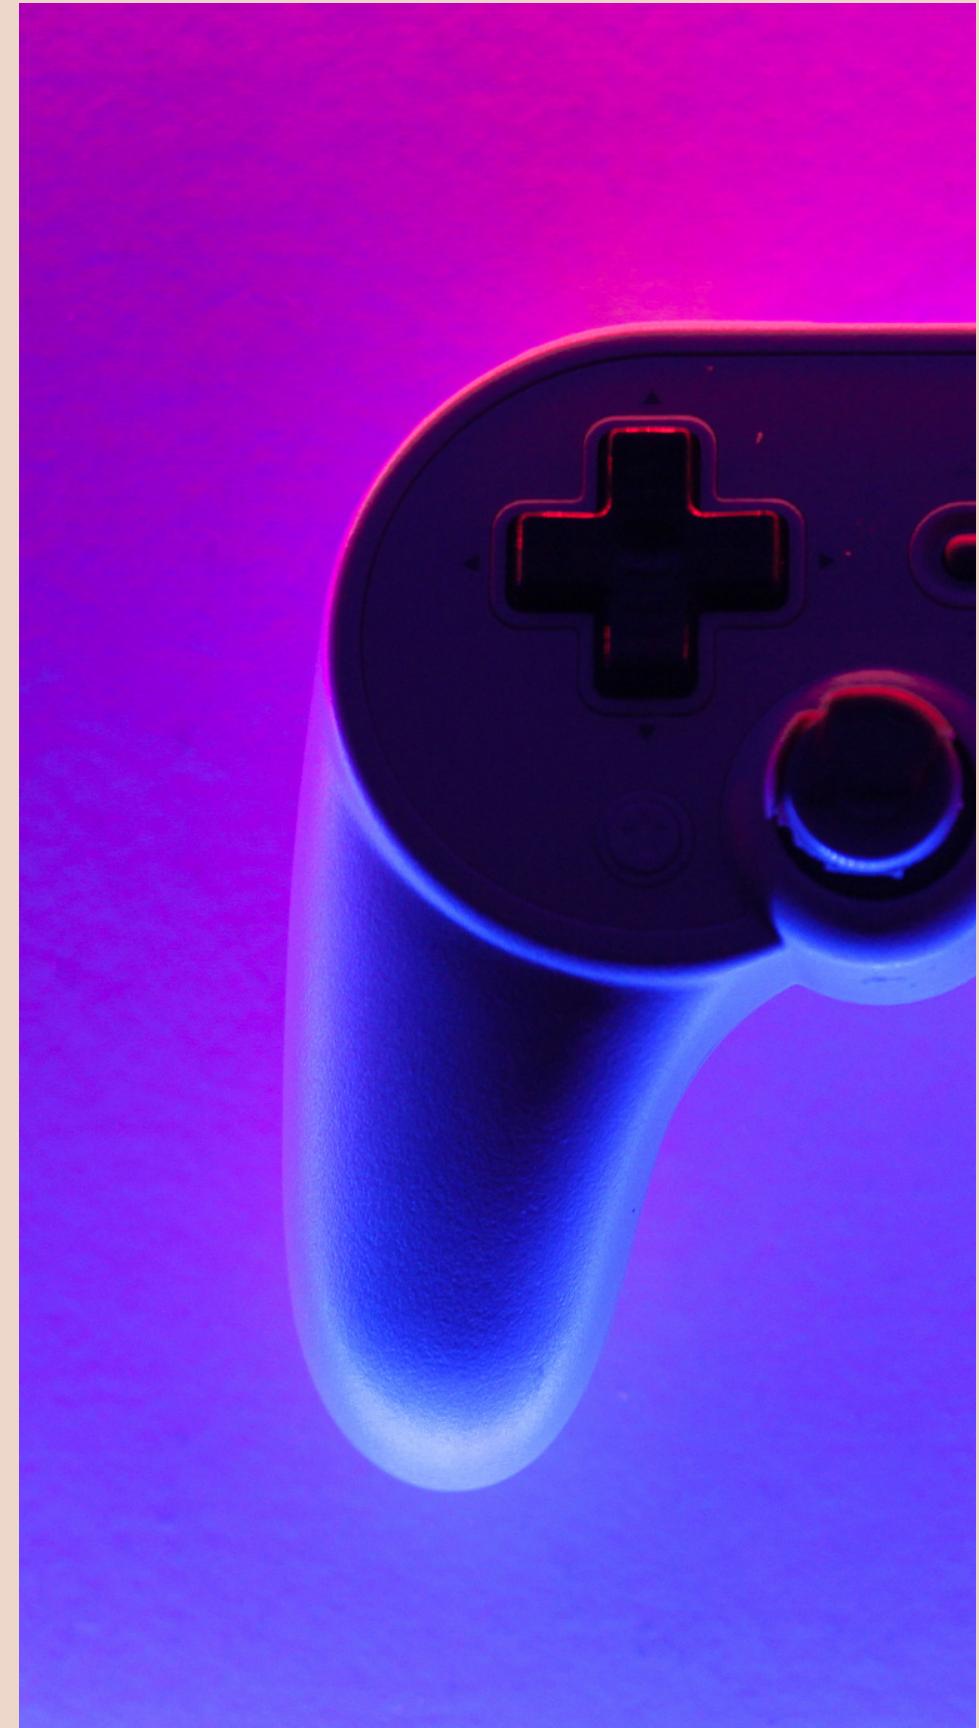

**Back-End:**
